State Closes Case

Late yesterday the state rested its case against Mrs. Phillips with liquor, if he can be located.

The most dramatic testimony of the afternoon was that of Jesus Comacho, Tucson detective, who told of his capture of Mrs. Phillips on a Pullman train bound for El Paso.

### HUBBY ESCAPES, BUT WIFE IS SEIZED AS MAKER OF HOME BREW

Charles Gillis, Richfield, alleged noonshiner, was a fugitive today, s sheriff's operatives searched for him, while his wife, Mary Gillis was scheduled to be arraigned on charges of manufacturing liquor.

The arrest of Mrs. Gillis followed a raid last evening by Sheriff C. E. Jackson and Deputy Sheriff Roy. Ballard, who said they found sixty-four bottles of home brewed beer, eight bottles of wine, two ten gallon crocks of beer in the making, 150 empties, and a quantity of

We are giving away a crystal bowl containing two gold fish, with the purchase of a fifty-cent box of Lac-Lax, the delicious candy laxative.

Children delight in these lively little gold fish, the goldest we could find anywhere. They are fascinating to grownups, too, and the clear crystal of the aquarium reflecting the golden flashes of alert, busy little inhabitants adds an ornamental touch to the home.

We couldn't think of a more acceptable gift with which to introduce this very mild and pleasant laxative. And a laxative of this kind is very important at this particular time. Lac-Lax are mild and harmless, nothing habit-forming about them. Grown folks like them and children really delight in taking them, for they are just like little mint lozenges.

## Startling Good News for Phonograph Owners!

Columbia discovers a process which produces records free from objectionable Surface Noise!

AS a phonograph owner you have always been annoyed by the swish and grinding and scratching noises of records. This "surface noise" has been considered impossible to remove. After years of experiment, the Columbia Graphophone Company to-day presents to the world a record that is virtually noiseless.

This record has been made possible by the discovery, in Columbia laboratories, of a process by which we are able to produce a surface material so fine in texture, so marvelously smooth, so free from friction that the phonograph needle travels over it almost inaudibly and with

The playing-result from the use of this new material is actually astounding—no other word can describe it. Melody unmarred by penetrating, obtrusive surface sounds, harmony without disconcerting scratch or scrape—think what this means to you and to every phonograph owner in the world.

This is made practical by Columbia's patented laminated, or threeply, construction. The core or centre leaf in Columbia New Process Records, because it is absolutely distinct from the playing surfaces, is made of a harder, more durable substance. Over this rigid backbone are laid the two playing faces made of the new, ultra fine, ultra smooth

This laminated construction gives greatly increased strength and longevity plus the most noiseless surface ever perfected.

The invention of this new process marks the greatest outstanding im- Columbia alone possesses the secret provement since the invention of the of making a material which, employed universally used disc record.

With New Process Columbia Records you get all the real beauty of voice; all the exquisite, delicate tones of the cello and the violin! You get melody uncontaminated by objectionable surface noise that has been considered impossible to remove UNTIL COLUMBIA REMOVED IT!

So great is our confidence in the enjoyment New Process Columbia Records provide that we ask you to tear out the list of records in this advertisement, take it to a Columbia Dealer and have him play them! Possibly he can play the same selections by other makers! Each comparison test will be a greater Columbia triumph!

You will be thrilled by the Columbia reproduction of every note, every inflection; of the most delicate phrasing-shades of harmony exquisitely expressed that have previously been LOST IN SURFACE NOISES!

In comparison with ordinary rec-ords, as made by other manufacturers, New Process Columbia Records will prove immediately preferable.

No other record can be like New Process Columbia Records. No one can produce anything even resembling them, for they are fully protected by broad basic patents. COLUMBIA GRAPHOPHONE CO., New York

In no other record can you get the record by the Columbia Graphophone same wonderful degree of surface Co .- for it is the genius-creation of quietness and pure, uninterrupted Columbia engineers and chemists- music, for the simple reason that as a surface for phonograph i obliterates obnoxious and intrusive surface sounds.

This new substance does not hush loud surface noises. They are never created. Surface noise is merely friction, the point of the needle grinding on microscopic roughness and multiplied by the sensitive reproducer. In New Process Columbia Records this microscopic roughness is refined away till friction is almost a fiction.

With new and unbelievably quiet playing surfaces, the dream of making the phonograph a musical instrument of the highest and purest type has become a reality! Columbia's new surface discovery has solved the whole question! Reproduction of music has now entered a new and greater phase! To-day, the phonograph with the New Process Columbia Records is a masterful triumph. You can now buy Columbia New Process Records from any Columbia Dealer.

Go hear these Columbia Records! Take this list with you! Note the smoothness and fullness of Columbia tone! Note the beauty of expression! Note the seeming presence of the actual voice or instrument! GO hear these records to-day.

Coach of St. Louis Browns Says Injury to Sisler Cost Club Pennant

"George Sisler's injury kept the St. Louis Browns from winning the American league championship."

So today declared Jimmy Austin, coach of the Browns, who arrived here for a short visit with Victor Walker while en route to Laguna Beach where he will spend the winter.

Austin, who is one of the real veterans of the American league

and who can yet swing a mighty mean bludgeon, expressed the opinion that the St. Louis club was better than the Yankees and would have played it out for the world series had not Sisler, the star first baseman and one of the greatest players the game has yet produced, been injured in the last few weeks of the season.

## Northern Crops Nearing End Due to Arrival of Cold Weather

(United Press Leased Wire) SAN FRANCISCO, Oct. 31.-

Light frosts yesterday down the peninsula and in some parts of the Sacramento valley have affected many growing vegetables and will bring them to an early end, according to reports of dealers. Tomatoes, string beans, squash, peppers and, in fact, all vine growing vegetables have been touched to some extent by the frosts.

Frosts are said to be hitting these sections earlier than usual. as the first killing frost last year came on November 8. Within a short time this market will be drawing on the southern part of he state for much of its supply of

tomatoes and peppers.

A small shipment of San Diego tomatoes were received today and sold at \$1.10 to \$1.25 per crates and \$1.25 to \$1.50 per Los Angeles law.

The potato market is very dull. Washington gems and Idaho russets are weak and selling from \$1.25 to \$1.40 per cwt. The market is glutted and very little movement of river potatoes is reported. On the other hand, onions are firm and fancy stock is selling from \$1.50 to \$1.75 per cwt.

Berries were in more liberal sup-

nigner and are now selling from 7½ to 8½ cents per pound.
Supplies light: Pineapples, grape-fruit, oranges, lemons, plums, berries, peaches, artichokes, cabbage, spinach, peas, lettuce, beans, summer squash, cauliflower, rhubarb, cantelloupes, corn, eggplant.
Supplies liberal; Bananas, figs, pears, apples, grapes, potatoes, cucumbers, tomatoes, peppers, celery.

CHICAGO, Oct. 31—Grain prices closed lower on the Chicago board of trade today under pressure of heavy selling by eastern export-ers, who had bought in excess of present moderate demands.

### FINDS BUSINESS ON MEND IN TOUR OVER WESTERN TERRITORY

WASHINGTON, Oct. 31.— General business conditions throughout the west are "enormously improved" over a year ago, Eugene Meyer jr., managing director of the War Finance corporation, declared upon his return from a three weeks' tour of six western

General business in the west, he said, is on the mend, except where interfered with by car shortages and where local conditions have taken temporary turns for the worse. Meyer's tour included California, New Mexico, Utah, Minnesota, Wyoming and Montana

Meyer reported a growth in the support being given co-operative market associations operative market associations by private banking interests, which he maintained lessened the call on War Finance corporation funds and reflected the spread of the co-operative idea. Also, he declared, the farmers throughout the west were evidencing a tendency to pay off their debts which has been reflected in the corporation's statements showing repayments of from \$12,000,000 to \$15,000,000 monthly.

SAN DIEGO, Oct. 31.-One of ply and prices were generally low-er. Straws sold from 60 to 90 nounced yesterday with the formacents per drawer, while raspher-ries were offered from 50 to 85 cents per drawer. Bananas are higher and are now selling from with resources of more than \$20,000,000.

The stockholders of the First National bank have acquired a controlling interest in the enterprise. The Citizens' Saving bank, 5-8; No. 4 Santo 15 1-4. the Bank of Coronado and the California State bank of East San Diego are brought under one head by the merger. John D. Spreckels, chairman of the board of directors of the First National, will hold the position in the new First Trust and Savings bank, and Frank J. Belcher jr., president of the First National, will be the ac-

tive head of the new institution.

The First Trust and Savings bank will take front rank among local financial institutions in point of resources. The merger is effective November 1.

on the contrary have remained almost stationary during the same period of time. The ordinary loan returns just about the same interest. You will agree with us on this point.

the Wise Investor is seeking an outlet for his money which will net him from 15 to 30 per cent with SAFETY. He wants his money to work just as hard for him as he did to get it—but he demands SAFETY FIRST. He doesn't try to get rich on a \$100 investment through foolish speculation because he knows it cannot be done.

The Corporation is managed by men of experience, ability and integrity. The Directors are men with reputations beyond question. The Advisory Council is headed by two prominent bankers. One of them is among the most capable, popular and well known bankers in Orange County. You know him—or know of him.

Tomorrow, we will outline the nature of the business. We are sure you will appreciate the many advantages—the SAFETY—plus the LARGE profits for the investors. Send for our free booklet—"A Steady Income."

Republican accomplishments in the line of economy and reduction of National expenditures are thus summarized by Senator Charles Curtis, of Kansas, who, as a member of both the Finance and the Appropriation Committee is in close touch with Govern-

When the extra session was called in May, 1919, the new Reblican Congress was called upon to pass upon the big supply bills which had failed of passage before March 4, 1919.

The amount recommended by the previous congress amounted to ......\$3,767,975,974.73 The amount appropriated was ..... 2,828,283,432.76

The estimates for 1921 and 1922 were submitted to Congress by the Democratic heads of departments and the appropriations were as follows: Appropriations fiscal year 1920, \$6,454,596,-649; appropriations fiscal year 1921, \$4,780,829,510; appropriations fiscal year 1922, \$4,066,316,366.

The appropriations for the fiscal year 1923, made at the session just closed, and upon estimates by the Republican heads of departments, and submitted through the budget, amounted to \$3,747,035,382.64. They are less than the appropriations for 1921 by the sum of \$1,033,794,127.71. They are less than the appropriations for 1922 by \$319,280,984.10. The largest of the reductions in 1923 was in the Army and Navy.

The appropriation for the Army for 1920 was \$794,621.564, and for 1923, \$256,411,169. The appropriations for the Navy for 1920 were \$623,673,230, and for 1923, \$294,336,577.

The total of the budget estimates submitted by the President for the fiscal year 1923 amounted to \$3,809,242,159.53. The total of \$3,919,558,429.50. The amount actually appropriated by Congress was \$3,747,035,382.64, being a reduction of \$172,-523,046.86.

The ordinary receipts for the fiscal year ending July 1, 1922, were \$4,109,104,150.94, and the total expenditures, including public debt items, chargeable against ordinary receipts, were \$3,795,302,499.84, leaving a surplus for the year of \$313,801,651.10, as against an estimated deficit last December of \$24,-468,703. The total gross debt of the government on June 30, 1921, was \$23,977,450,552.54, the total gross debt June 30, 1922, was \$22,963,381,708.31. The reduction in the debt during the year amounted to \$1,014,068,844.23. The total gross debt of the United States on May 31, 1919, was \$25,916,874;

The reduction of appropriations and the consequent reduction in expenditures has, of course, reduced the government taxes. The amount of the reduction for 1921 (calendar year) was \$80,-000,000, and the reduction for 1922 (calendar year) will amount

There has been a reduction of employes from 691,116 on y 1, 1920, to 568,390, December, 1921, making a reduction of

Senator Curtis also called attention to the fact that on account of the war the annual interest on the national debt has increased \$950,000,000 a year, sinking fund appropriations \$309,000,000, pensions \$100,000.000, while about \$420,000,000 is required for the new Veterans' Bureau

Another important fact cited by Senator Curtis is that about two years ago Liberty bonds were selling in the market for less than 85 cents on the dollar but as a result of the sounder financial policies of the Republican party they are now worth 100 cents.

Under certain conditions, the mistress of the burial farm is quite gracious—almost queenly.

It is while she is showing you last twelvemonth.

The burial ceremony, according to Mrs. iWederhold, is extremely simple. The colonists hold that the body, being of no further use, has gone back to earth, while the spirit, freed from its cumbersome burden, has soared to nobler realms. "Oh, just like this."

Here, Wiederhold began weaving back and forth, making strange movements with his hands, and "blowing his breath" like one who, having found a dead bird in the road, attempts to restore it to life by breathing upon it.

"That's the way it was," he explains, with his peculiar smile. "That's the way I brought her back."

The leader was said to have held the opinion that spirits of the dead actually entered his brain by virtue of seams which had been opened in his skull.

"He asserted further that he had not gone to bed for years, and that when he did sleep, which was very seldom, it was while sitting upright in a chair, in order that he might be ready to receive spirits on his lap at any time they might choose to visit him."

## couldn't buy Mazola IN A BOTTLE!

The producers of Mazola realize that absolute purity and the complete sterilization of vegetable oil are best insured when the oil is packed in tin. Oil sold from barrels, or in refillable glass bottles, may be unsanitary and of inferior quality.

The best imported oils are sold in tins. So is Mazola.

Mazola is packed only in full-measure cans, plainly marked on the label. It is never affected by the action of sunlight. Nor does Mazola ever become rancid. You need not keep it in the ice box, even in the hottest weather.

Mazola has the greatest sale of any brand of cooking or salad oil. This is because millions of American housewives have proved its superior worth in cooking, and its delicious taste as a pure and wholesome salad oil.

"Abie's Irish Rose" is the story of a young Jewish lad who marries a pretty little Irish girl and then tries to introduce her into the home of his strictly orthodox Hebrew father. Complications of high order come rapidly for Abie's father, Solomon Levy's pet aversion is the Irish.

PRISCILLA DEAN COMES IN "UNDER TWO FLAGS"

Undoubtedly you are one of the millions who read "Quida's" famous masterpiece, "Under Two Flags," and there is more than a passing chance that you also saw it enacted as a stage play. If so, it is hardly necessary to tell you of its thrills, its fire and powerful action. When it was decided to screen this masterpiece Universal had no difficulty in selecting the player to portray the role of Cigarette. There is just one star in pictures that has the fire, the engree perve and blazing eves to do ergy, nerve and blazing eyes to do the part justice, and that is Pris-

Charging that Woolwine, whom he characterized as a friend of the grafters, bootleggers and lawless element, had ostracised himself

For a little while, in utter silence, his keen eyes traveled from one visage to the next, from Henri Picquet to Victor Georgiades, to Sanchez, to Sard. His intent scrutiny focused on Sard;

on either knee.

"Is there," he asked softly, "any gentleman who shall objec??"

"Who," demanded Georgiades hoarsely, "is to divide for us?"

"It is for such purpose," explained Quintana suavely, "that my frien', Emanuel Sard, has arrive. Monsieur Sard is a brokaire of diamon's, as all know ver' well. Therefore, it shall be our frien' Sard who will divide for us what we have gain today by our—industry."

The savage tension broke with a laugh at the word chosen by Quintana to express their efforts of the morning.

CALEXICO, Oct. 31.—The first snowstorm of the season was reported last night in the mountain passes between Calexico and San Diego.

NOTICE TO VOTERS

Swing me into office at the election on November 7th as Representative in Congress Eleventh District (Counties of Imperial, Inyo, Mono, Orange, Riverside, San Bernardino and San Diego), so that I can introduce a Resolution proposing the repeal of the Prehibition Amendment. It is not a genuine Amendment to the constitution and must be expunged from the records. Vote

Quintana to express their efforts of the morning.

Sard had been standing with one fat hand flat against the trunk of a tree. Now, at a nod from Quintana, he squatted down, and, with the same hand that had been resting against the tree, he spread out the pile of jewels into a flat layer.

As he began to divide this into five parts, still using the flat of his pudgy hand, something poked him lightly in the ribs. It was the muzzle of one of Quintana's pistols.

The Constitution and must be expurity and must be

away with anything like that-Quintana coolly shoved him aside and with the barrel of his pistol he pushed the flat pile of gems into five separate heaps. Only he and Georgiades knew that a magnificent diamond had been lodged in the muzzle of his pistol.

Quintana, with the muzzle of his

pistol, detached half a dozen

A snarling wrangle instantly began, Sanchez objecting to rubies and demanding more emeralds, and Picquet complaining violently ncerning the smallness of the

diamonds allotted him. Sard's trained eyes appraised every allotment. Without weighing, and, lacking time and para-phernalia for expert examination, he was inclined to think the division fair enough.

Quintana got to his feet lithely.
"For me," he said, "it is finish.
With my frien' Sard I now depart.

Sard, seized with a sort of still terror, regarded Quintana with en-ormous eyes. Torn between dismay of being left alone in the wilderness, and a very natural fear any single companion, he did

not know what to say or do.

En masse, the gang were too distrustful of one another to unite on robbing any individual. But any individual might easily rob a companion when alone with him.

"Why—why can't we all go to-gether," he stammered. "It is safer, surer—" "I go with Quintana and you," interrupted Georgiades, smilingly;

way; or you desire to have a fine
clear, healthy complexion, we want
you'to try a package of our MARVELOUS REMEDY, YEASTOLAX,
Among its various elements YEASTOLAX contains the highest and
most potent VITAMINES, which
the scientific world has found to
be absolutely necessary to bodily
vigor. People all over the country
have found great relief through
its use, and now feel the joy of perfect health and vitality. YEASTOLAX also has the properties of being non-gripingly and mildly laxative. yets its action is sure.

IN order to quickly introduce YEASTOLAX into every community, we
will give for a limited time to any

THE Russian Ruble recently was
worth 55c per ruble, giving the above
a value of \$27,500.00.

SAVE this money; many a great fortune has been built up by buying
foreign money after wars. The Chicago Tribune on September 12th
calls attention to the new canal
which has just been opened for
shipping between Russia, Germany
and Central Asia, affording a new
source of raw materials for the
Russo-German combine, especially
oil, manganese and copper and opening up the rich Persian and Central Asian trade to Germany and
Russia. Think what this means;
surely you cannot afford to pass up
the opportunity to acquire these
Rubles.

SEND in your name and address, today; the package of YEASTOLAX
and 50,000.00 Rubles will be delivered

SOLD-514 S. Garnsev

LAST week I offered for sale the beautiful 5 room bungalow just completed at 514 S. Garnsey—and sold it to Mr. E. C. Devault, NEXT DOOR NEIGHBOR. Also sold the uncompleted six rome house at 956 W. Myrite to Mrs. Mabel Sherwood. Mr. Davault, a retired merchant of Tulsa, Oklahoma, bought my six room house at 510 S. Garnsey two months ago, three weeks before completion. It was completed to his satisfaction. He paid for it and moved in. He watched the construction of the house next door, saw the kind of materials and workmanship that went into it—and at the proper time—STEPPED IN AND BOUGHT IT.

I am proud of an endorsement like that—and Mr. Davault is one of my many satisfacd house buyers. Under the present tremendous demand for Santa Ana homes most any sort of a new house—NICELY PAINTED—will sell readily, but we know that this tremendous demand cannot last always; we know that the time must come—maybe one, three or five years hence—when it will be among builders "the survival of the fittest"; when the builder with a deserved reputation for honest, substantial, durable constructed from "Toundation to roof" can still market his offerings at a fair profitwhile the other kind must seek other fields.

Ilke Santa Ana and the building game. I want to be one of the "fittest" that survive. And today while building homes I am trying to build a reputation that will insure a continuance of such activities in the future.

Ust now I have at various stages of construction, two flys room houses.

## ADVICE ON PROPOSALS

No. 8-Municipalities Act-Vote Yes.

No. 9-Municipal Charters-Vote Yes. No. 10-Taxation of Publicly Owned Public Utilities-Vote No.

No. 11-Regulation of Publicly Owned Public Utilities-Vote Yes.

No. 12-State Budget-Vote Yes. Yesterday, The Register reviewed, and gave its the shortage is growing. conclusions, concerning the first seven proposals that are to appear on the ballot November 7. Today a surplus of 646,673 idle cars. Proposals Nos. 8, 9, 10, 11 are dealt with.

A vital principle of the rights of the governed is concerned in No. 8. By an act of 1918, a city with a population of less than 40,000 can be annexed railroads move freight on a big scale, people are bodily to another city without the consent of the ter- buying and selling on a big scale. That makes prosritory annexed. No such thing as that should be perity. possible. No. 8 proposes the remedy. When it passes, annexation can be effected only by a majority vote of the territory proposed to be annexed. Vote

yes on No. 8. No. 9 is of no concern in nearly all of the cities of the state. Under it a city may organize boroughs within that city. At present, the state constitution within that city. At present, the state constitution allows San Francisco, which has a city and county the scale of intelligence. The horse has more than allows San Francisco, which has a city and county the cow, and the dog has more than the horse. Man government, to do that very thing; yet Los Angeles has the most of all. But along with the play instinct cannot. There is no reason why this measure should not pass, and many reasons why it should. So, vote

yes on No. 9.

rendering similar service. This measure would tax public property for public purposes; that is, the public would be taxing itself to raise money for itself. The freedom of school and other public property from taxation is a well established principle. There from taxation is a well established principle. There is no more reason to tax the utilities named than there is to tax water systems and schools. This No. The Boy Scout movement is old enough to have 10 proposal, coming from the public service corpora- proven its worth. It helps amazingly to build boy tions of the state, aims to make it harder for publicly owned utilities to exist. The League of California

Vote No. on No. 10.

No. 11 is a sister measure to No. 10, also proposed have the power of regulating all systems owned by municipalities, counties and districts that supply light, power, heat, transportation, telegraph or tele-phone service. While The Register would hesitate to advise placing a handicap upon any political subdivision that is endeavoring to work out its own destiny in relation to supplying the needs of its peo-ple for any commodity, in this instance regulation apparently would not prove a handicap, but would result in bringing about efficiency in publicly owned plants that are not working efficiently. It does not seem that harm could be done to a publicly owned system or plant that is operated efficiently. If this measure passes, a big city like Los Angeles might be prevented from building itself up by supplying manufacturing power to privately owned plants at a very low figure, with light users furnishing the money to make up whatever loss might be sustained by reason of supplying this power at less than cost. As it is, Los Angeles can furnish power at such a low compete with Los Angeles in manufacturing. The statesmeasure should be passed.

No. 12 proposes a business-like budget for the State of California. It is a move in the right direction. As a means of putting the state government upon a better business basis, No. 12 should carry.

## CHILD LABOR AMENDMENT

Previous federal laws to regulate child labor have been declared unconstitutional. The National Child Labor Committee has now pledged its support to the McCormick Senate resolution which proposes to amend the federal Constitution so that the labor of children under 16 years shall be prohibited.

Hasty and ill-considered amending of the Constitution of the United States is by all means to be avoided. But that great document was intended to be a bill of human rights, and with the exception of two or three routine matters it has not been amended except in the direction of extending human liberty. Even the eighteenth amendment, construed otherwise by some people, is in reality directed toward the abolition of a slavery.

The nineteenth amendment is concerned with the rights of women. The resolution proposed as a twentieth is an attempt to safeguard the rights of children. If men are people, if members of the colored race are people, if women, tardily recognized, are peoare people, if women, tardily recognized, are people, then surely children are people and entitled to every protection the Constitution can throw around them. The proposal to prohibit the labor of children ple, then surely children are people and entitled to every protection the Constitution can throw around them. The proposal to prohibit the labor of children in any commercial way under the age of 16 deserves thoughtful consideration from every point of view. It is the duty of every citizen to study the child labor

situation in accordance not with the theory that "a little work doesn't hurt a child" but with the facts of the cruel and stunting labor performed by thousands of children who are not protected in loving homes. The National Child Labor Committee has plenty of facts to supply for anyone who cares to go into the matter.

To those who have spent years investigating this condition and trying to remedy it, the only solution seems to be the federal amendment.

### THE WOMAN SENATOR

The appointment of a woman to the United States Senate, to fill the unexpired term of the late Senator Watson, seems a matter of chivalry rather than poli-

The governor of Georgia is said to have offered the appointment first to the widow of Senator Wat-son, thereby setting a precedent that will be heard from many a time hereafter. That in itself was a graceful acknowledgment of the equal rights of women in the new age. On her refusal to accept the honor, it was given to Mrs. W. H. Felton, the "grand old lady of Georgia," who is credited with half a century of useful public work. And this in a state which has been thought of as opposed to woman suffrage and all its works.

It may be granted that the appointment is, in effect, little more than a gracious compliment, because the new senator is 87 years of age and because a successor to her will be chosen in due form in the November election. Nevertheless, while her brief tenure lasts, she will be a veritable senator, with all the dignity and power that belong to that high office, and she will stand in history forever as the first woman United States senator.

If we want the man to be right we must proposes that the State Railroad commission shall start the boy right. Parents who have boys of their own do not need any urging to support a movement so strong in benefit to their own boys. But those who have no boys of their own still have a vital interest in the welfare of the race. They and theirs expert to be represented in the world of tomorrow and so it is a matter of concern what kind of men

Divorces In California

Pasadena Star-News

The startling number of divorce actions filed in California is indicated by statistics from the office of the county clerk of Los Angeles county, showing that more than 8,0100 divorce complaints have been brought in this one county since March 1, 1919. The number of broken homes is deplorable enough, considered by itself. But it should not give rise to misconceptions. If some 18,000 homes were broken by suits filed in one county, covering a period of less than four years, it should be remembered, that in this one county, there are vastly more than 18,000 couples who are happily married and whose

The fact that many suits for divorce are brought cost that concerns in cities near Los Angeles cannot in this state by persons who really belong in other -who come here and establish residence to sue for divorce—should be considered too. All the divorce suits, here in other words, do not originate

among Californians. The problem of divorce is very serious, it is true. There are too many mismatings-too many broken homes and shattered romances. Young people should be impressed with the importance of being thoroughly prepared for marriage; to be exceedingly careful in their mating; and to lead clean lives both before

DESERT SAGE My feet are treading the city streets, But my heart is far astray, Over the distant desert hills Where the sage grows cool and grey, Where the scent of the sage is keen and sweet That flies on the wind away.

I hear the noise of the busy town And the crowds that pass me by: But my thoughts are away to the distant hills
As wild birds homeward fly. I am one with the hills and the fragrant sage, The wind, and the autumn sky.

And ever the western winds do blow, From the Land of Yesterday, Where the silvery plumes of desert sage Fragrantly bend nad sway: (Oh, my feet are treading the city streets-But my heart is far away!)

whelming indorsement of his constituents it for no other reason than the valiant and successful fight he made in behalf of the growers of the state. I was a member of a committee of the citrus industry and also of the walnut industry which went to Washington to present to the ways and means committee of congress briefs showing the needs of our industries for a protective tariff. While our congressmen and senators were, of course, all interested and glad to assist us, it was upon Senator Johnson that we relied principally. We found he had great influence in Washington and was in an unusually strong position to get what California was entitled to. We placed out case in his hands. Since that time our fight has been his fight. He worked for us incessantly, night and day, importuning and insisting that the senate finance committee give our industries adequate protection. He succeeded. I feel absolutely certain that had it not been for the influence of Senator Johnson in the United States senate we would have gotten very little consideration in our walnut and citrus tariff fight.
